

EVALUATING YOUR RING SIZE

Please carefully read all instructions as the measurement may not be accurate if not done properly

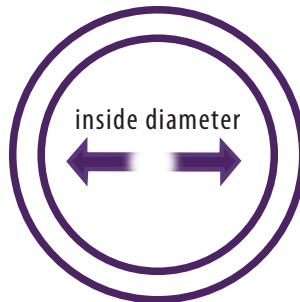

1. Before printing this page please make sure the page scaling is set to “none” on your printing setup options.
- Please measure the scale on the left and make sure it is exactly 1 inch or 40mm.

CAUTION:

2. If the measurement is not 1 inch exactly then check your printing setup options again to ensure it is printing at full size and then reprint before continuing.

Measure Your Current Ring:

- A) Choose a ring which properly fits the intended finger*.
- B) Place your ring on the circles and locate the circle that matches the closest to the inside size of the ring.
This measurement refers to the inside diameter of the ring.
- C) If your ring falls between two sizes then order the larger size.

MEASUREMENTS MATCH THE INSIDE EDGE OF THE RING

Measurements show ring sizes in the US and Canada

INTERNATIONAL RING SIZE CHART

Circumference (mm)	Diameter (mm)	UK, Europe, & Australia	United States & Canada	CN/SG/JP	HK	Switzerland

TIPS For Determining Ring Size

Suggestions for measuring your finger

When the ring is on the finger, it should be snug enough so that it won't automatically slide off the finger but loose enough that if you apply light to mild pressure it should slide over the knuckle. **Your ring should feel comfortable on your finger.** While worn your finger shouldn't feel squeezed.

Finger size will vary depending on the time of the day and weather.

In order to get accurate ring size measurement:

1. Measure your ring size at least 3-4 times to avoid errors.
2. Measure your size at the end of the day when your fingers are warm.
During the morning time and at colder temperatures fingers are narrow.

Do Not use paper or string to measure the ring size as these materials can twist or stretch thus leading to erroneous measurements.

Tips for when the ring is a surprise

1. Ask her parents, siblings or friends of her ring size.
2. Use one of their actual rings (from the correct finger) and place it over the ring size measurement chart provided above.

Note on US Ring Sizes

Women's ring sizes generally vary from a size 3 to a size 9. Most of GemsNY women's rings sold are between a size 5 to 7. The most popular ring size is 6.0.

Men's ring sizes generally vary from a size 8 to 14. Most of GemsNY men's rings sold are between a size 8.5 to 11. Size 9.5 is the most popular ring size.

International Ring Sizes

For orders outside of US and Canada, please use our ring size chart to determine ring size according to your country. Then convert this ring size into a US ring size equivalent.
